

Using Strategic Intelligence on Carbanak Report

Assignment

1h35m - 2h

✓ Status Incomplete

Introduction

In this assignment, you will conduct a review of the Carbanak Threat Intelligence Case Study and extract & summarize the information in a report using strategic threat intelligence.

Instructions

Part 1: Analysing Carbanak Case Study

👉 Analyse the [Carbanak Intelligence Case Study](#) and identify the following strategic intelligence information from the case study:

- The geopolitical and socio-economic factors that may affect the Carbanak threat landscape
- The potential impact of the Carbanak group on the organization's security posture
- Long-term planning considerations, including investments in new security technologies, policies, and procedures
- Potential future developments and trends in the Carbanak threat landscape

Part 2: Creating Analysis Report

👉 Present your analysis and findings in a written report; the report should include the following sections:

- **Introduction:** Provide an overview of the importance of cyber threat intelligence and the purpose of the report you are writing.
- **Strategic Intelligence:** Present your strategic analysis, including an analysis of:
 - Geopolitical and socio-economic factors,

- Potential impact,
- Long-term planning considerations, and
- Future developments and trends.

The report must be developed in the Google Doc format; it should not be more than two-pages long.

Once the report is ready, you are encouraged to post the link to the Google Doc report on Discord for any peer feedback.

You may also save the report to your PKM or professional portfolio for future reference.
